Dear Buyer,

I would like to introduce to you three brands from McKlein Company, a leading manufacturer and supplier of stylish and innovative cases with over 29 years experience in the travel industry. Each brand is designed to accommodate customer needs and effectively enhance their professional and personal situation.

McKleinUSA offers a wide assortment of well-designed leather and fabric cases at affordable price points. Customers can choose from sleek laptop cases, briefcases, totes, backpacks, messengers and luggage; with many pieces featuring our industry leading patented mobile design. Furthermore, as a leader in innovative design, McKleinUSA offers the professional women's market the largest selection of women's laptop cases and briefcases in seven attractive colors.

Siamod is an Italian inspired high-end brand featuring three exceptionally designed collections of luxury, leather laptop cases, briefcases, totes, messengers, duffels and luggage. The three collections include the Monterosso, Vernazza and Manarola. The Monterosso Collection features eye-catching, Italian Crocco leather cases designed to compliment ambitious, career-minded, continually mobile professional women with a keen sense of fashion. The Vernazza Collection features an array of soft Napa Cashmere leather cases in four colors. It is our most diverse collection as it features our Patented 2-in-1 Detachable Wheel and Handle System as well as our Patent Pending Fly-Through Checkpoint-Friendly Design. The Manarola Collection, which is crafted from smooth Oil-Pull Up leather assumes a more classic look and is available in a rich cognac brown and black color.

Parinda is the latest brand from McKlein Company, which showcases a collection of beautifully crafted handbags. Enthusiastically striving to remain at the forefront of design, the Parinda brand continues that tradition with fashion-forward handbags that exceed industry standards. Designed to be the perfect accessory for both day and night affairs, each handbag is made from quality, faux leather material to give it a soft feel and enhance its already alluring design. Parinda is available in some of today's most trendy colors including Plum, Sand, Red, Mocca, Black and Pecan. With its unique design and affordable price point, Parinda is a nice alternative in an already copious market.
