**CONVERTIBLE**  
Patented Removable Wheel & Handle System  
U.S. Patent No. 6,595,334 & 6,994,195 • Canadian Patent No. 2,379,716 • Worldwide Patent Pending

Exclusive to McKlein! Our patented removable wheel and handle system is a definite must have item! It was featured in both The New York Times and The Los Angeles Times. First introduced in 2002 by McKlein, this system now has grown into one of our most asked about bags. Today we offer a broad selection of 2 in 1 bags to cater to everyone's needs.

The Removable Wheel and Handle System allows you to have the convenience of a rolling bag as well as the practicality of carrying your bag with you. The rolling feature is great when toting along heavy loads and walking long distances. However there are always times when you are in stuck in inclement weather or crowded spaces and rolling your bag would be a hassle. For that reason McKlein offers the 2 in 1. You get essentially two great bags for the price of one.

The briefcases completely detach from the wheel and handle system by unzipping the customized matting zippers the bag completely changes in appearance.

McKlein offers the 2 in 1 feature in a variety of briefcase silhouettes from colorful Italian leather styles for women, basic ballistic nylon and leather briefcases, to large catalog cases. Most cases come with laptop protection, a media organizer, an adjustable shoulder strap and a weather proof cover.

# PATENTED REMOVABLE WHEEL & HANDLE SYSTEM

U.S. Patent No. 6,994,193 & 6,595,334  
 Canadian Patent No. 2,379,716  
 Worldwide Patent Pending

## SIMPLE & EASY TO USE

## ADVANCED FEATURES

### It's innovative, we promise.

Introducing a revolutionary Award Winning Design Patented Wheel & Handle System from McKleinUSA. This exciting invention was created for the professional traveling in multiple environments and always on the move. This patented system allows you to completely detach the wheel and handle system from the briefcase.

#### Detachable

Whether it's a lighter load, inclement weather or a crowded space, sometimes a shoulder bag simply works better. We offer an easy transition to give you more options.

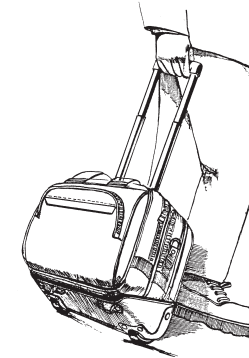

#### Attachable

For long commutes and heavy loads keep it attached and ease the strain on your back. Our in-line wheels and dual laptop protection make getting around a snap.

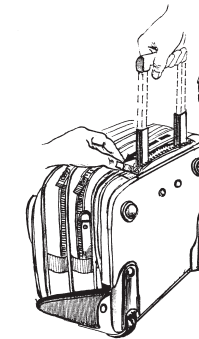

“ When I arrived in Colorado for business, there was 13” of snow on the ground. Thankfully I could detach my bag and carry it with me.”

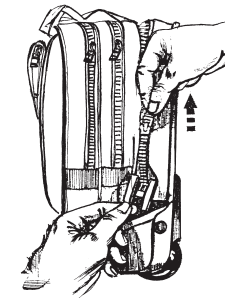

- Jonathan Regnier,  
 Small Business Owner
